 Zoning Administrator Stephanie Runkle reviewed the amendment related to battery energy storage. Jim Pladsen, Chair of Planning & Zoning Commission, commented that this will be the first of three similar issues being addressed by the Planning & Zoning Commission, with solar and wind turbines being addressed in the future. Runkle has heard questions about what a Battery Energy Storage System (BESS) is, but no other comments have been received.

 24.341-Motion Reiser/Second Keatley to approve quote from Kerr Electric for \$7,582.15 for adding electricity to new recycling building. Motion carried.  
 Paul Kruckow, Winona Heating and Ventilating, and Custodian John Roe explained to Supervisors the need to repair or replace boiler steam traps. Kruckow provided info from 2007 when they replaced all 117 traps. Kruckow recommends analyzing the system once the boiler is up and running for the winter months, testing each trap and replacing or repairing those not working. For testing traps, labor is \$120/hour, estimated 2 days to go through and test all 117 steam traps in the courthouse, no repairs. Cost to replace is different than cost to repair a trap. Kruckow also recommends contacting our energy company about any rebates they may offer.  
 Engineer Ridenour and Supervisors discussed letter from USDA regarding watersheds - Allamakee County and USDA agreed to maintain the English Bench watershed for 50 years and that 50 years has expired. Discussion needs to take place to determine how the county wishes to move forward with maintenance or removal or something in

between for the watersheds. Ridenour suggested a meeting with Allamakee Soil & Water Conservation District Board and will contact them to discuss options.
